Hommage à Paolo Fabbri

Paolo Fabbri (1939/2020)

Paroles d'Elisa de Souza Martinez

It is with great sadness that I read this message. For many years, Paolo Fabbri has been an inspiring example of academic generosity and enthusiasm. In many opportunities, I have had the privilege of attending to his events and interventions, in which I could see his great enthusiasm for everyone else's contributions. I will certainly miss his presence in future events. Also, I will keep on sharing his most valued contributions with my students and colleagues in Brazil. He will remain alive for all of us, present in our work and debates over a more open semiotic perspective.

Prof. Dr. Elisa de Souza Martinez
Universidade de Brasília, Brazil – Associate Professor
